

WAVE 15

Wall-recessed luminaires for LED

Wall recessed luminaires. Die-cast aluminium housing with wiring compartment and gasket. Stainless steel lock screws. Transparent glass cover. A number of decorative die-cast screens (A-B-C-D) are available as accessories designed to be installed between glass and housing to create different lighting effects. All LED models have to be operated with a supply voltage of 12V (AC) and at 50 Hz (sealed transformer see page 417). Do not use PWM switching power supply units. The luminaires must be installed in a techno-polymer build-in kit which has to be chosen from the accessory list additionally. IP55.
