## WAVE 35

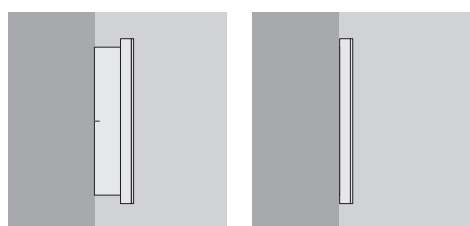

Wall luminaires

A series of wall and semi-recess mounted fixtures with a painted aluminium ring and a transparent glass diffuser. Wave 35 features decorative aluminium screens to create different lighting effects and is indicated for atmospheric lighting in public venues, hotels, showrooms and stores.

# WAVE 35

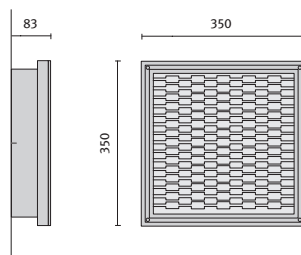

Wall luminaire for LED

Possibility of surface mount or semi-recessed mount.

Series of surface mounted or semi-recessed wall luminaires. Base in die cast aluminium, painted white. Ring in die cast aluminium, painted white. Stainless steel locking screws. Diffuser in transparent glass plate. Models with white LED 6500° K, blue and RGB LED. Opaline sheet in technopolymer.

A series of decorative screens, A-B-C-D, in die cast aluminium painted white to install between the glass and the housing to create different lighting effects. Available as an accessory, coupling kit to install a loop and create a coupling between two luminaires, to order separately. Class III, IP40. The transformer is not included in the product and has to be ordered separately (page 417).
