

Food glass filters

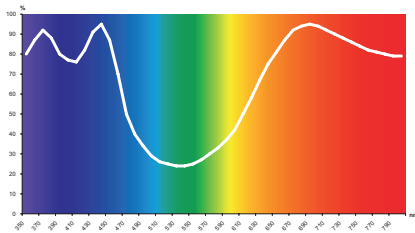

for recessed, track, shelf and gimbal luminaires

Instance image

Food glass filter for meat products

- Dichroic interference filter „Pink“
- Reduces the medium and infrared spectral area to protect the products
- Emphasizing the fresh natural colours of meat and sausages
- Recommended lamp: HIT/ CDM-T, warm white

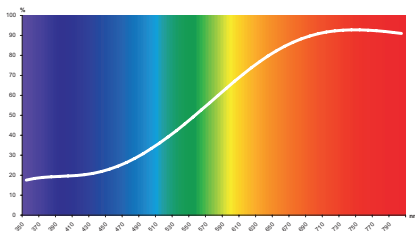

Version	Art.-No.
EB 10 / SH 10	10.961
EB 12 / AS 12 / AS 13 / KA 12 / SH 12	12.961
EB 18 / AS 18 / AS 19 / AS 27 / KA 18	18.961

Instance image

Food glass filter for bakery products

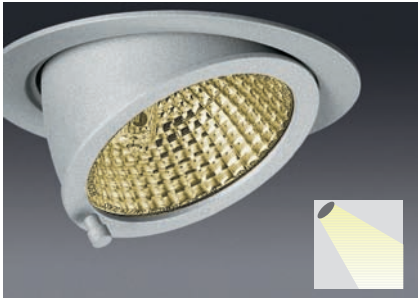

- Dichroic interference filter „M3-400“
- Increases the short wave spectral area from yellow to infrared
- Intensifying of all warm colour shades for bakery products
- Recommended lamp: SDW-T/ CDM-T, warm white

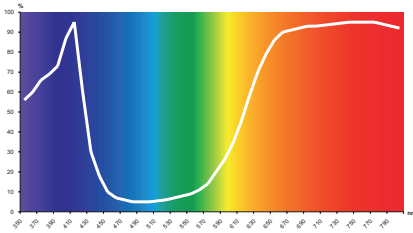

Version	Art.-No.
EB 10 / SH 10	10.962
EB 12 / AS 12 / AS 13 / KA 12 / SH 12	12.962
EB 18 / AS 18 / AS 19 / AS 27 / KA 18	18.962

Food glass filters

for recessed, track, shelf and gimbal luminaires

Instance image

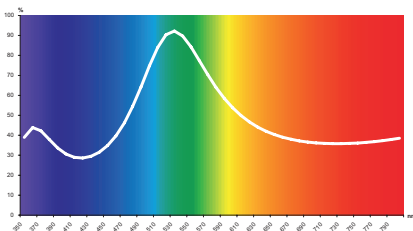

Food glass filters for fruits and cheese

- Dichroic interference filter „Yellow“
- Emphasises the fruit characteristics from yellow up to red colour rendering
- Optimum product display for fruits and cheese
- Recommended lamp: SDW-T/ CDM-T, warm white

Version	Art.-No.
EB 10 / SH 10	10.963
EB 12 / AS 12 / AS 13 / KA 12 / SH 12	12.963
EB 18 / AS 18 / AS 19 / AS 27 / KA 18	18.963

Instance image

Food glass filter for vegetables

- Dichroic interference filter „Green“
- Amplifies the central green spectral area
- Reduces the infrared and UV part to protect the products
- Emphasizing the freshness of vegetables and flowers
- Recommended lamp: CDM-T, neutral white

Version	Art.-No.
EB 10 / SH 10	10.964
EB 12 / AS 12 / AS 13 / KA 12 / SH 12	12.964
EB 18 / AS 18 / AS 19 / AS 27 / KA 18	18.964
