

Power units

Power unit for halogen metal halide lamps HIT / HIT-DE

Electronic ballast for metal halide lamps HIT / HIT-DE. Black polyamide housing. Lamp cable (0,5 m) with ST18-connector. Mains connection via screws until 2,5mm². Auto power off if lamps are missing or faulty and during overheat.

- Supply voltage 220 - 240 Volt
- Mains frequency 50 / 60 Hz
- Mains current 0,2 / 0,36 / 0,7 A
- Power factor 0,97

Version	Art.-No.	Length x width x height	Weight
for 35 W	10.35.23	156 x 88 x 39 mm	0.5 kg
for 70 W	10.70.23	156 x 88 x 39 mm	0.5 kg
for 150 W	10.15.23	156 x 88 x 39 mm	0.5 kg

Power unit for high-pressure sodium vapour lamps HST-CRI (SDW-T)

Magnetic power unit for sodium vapour lamps HST-CRI with mains supply. Black anodised aluminium housing. Lamp cable (0,5 m) with ST18-connector.

- Supply voltage 220 - 240 Volt
- Mains frequency 50 Hz
- Mains current 0,46 / 0,78 / 1,35 A
- Power factor 0,88 / 0,89

Version	Art.-No.	Length x width x height	Weight
for 35 W	10.35.30	350 x 74 x 100 mm	2.5 kg
for 50 W	10.50.30	350 x 74 x 100 mm	2.6 kg
for 100 W	10.10.30	350 x 74 x 100 mm	3.0 kg

Power unit for high-pressure sodium vapour lamps HST-CRI (SDW-TG)

Electronic ballast for high-pressure sodium vapour lamps HST-CRI (SDW-TG). Black polyamide housing. Lamp cable (0,5 m) with ST18-connector. Mains connection via screws up to 2,5 mm². Auto power off if lamps are missing or faulty and during overheat.

- Supply voltage 220 - 240 Volt
- Mains frequency 50 / 60 Hz
- Mains current 0,49 / 0,54 A
- Power factor 0,95

Version	Art.-No.	Length x width x height	Weight
for 50 W	10.50.33	180 x 90 x 40 mm	0.5 kg
for 100 W	10.10.33	180 x 90 x 40 mm	0.5 kg
